SUMMARY

High-impact Technology Strategist and Delivery Architect with over 5 years of experience in frontend engineering and end-to-end product delivery. Expert in translating complex visions into scalable solutions through elite engineering and human-centric leadership. Specialized in AI-driven development and the creation of digital products for social inclusion.

WORK EXPERIENCE

TECHAHARTAK | Founder & Lead Developer

Jan 2026 – Present

- Architected a social-impact platform dedicated to accessibility, managing the full product lifecycle from discovery to iteration.
- Coordinated cross-functional execution and aligned product priorities with delivery timelines.
- Identified and resolved execution bottlenecks using AI-augmented workflows to optimize development.

OVAK TECHNOLOGIES LLC | Senior Frontend Engineer

Apr 2021 – Jan 2026

- Led the delivery of complex features within cross-functional teams using Angular and TypeScript.
- Acted as a bridge between technical implementation and product requirements.
- Supported performance optimization and system improvements, ensuring seamless stakeholder alignment.
